The last I remember is they ran a test pattern in 2007 other than that I really don't know I know that the last license renewal authorization was granted on 3/28/07 and expires 10/1/2013

How long these stations have been off air?

Well since I have no money I have no choice to cancel them. Is there any chance that someday they'd be useful or worth anything, and if so can I still sell them?

These are LPTV stations and right now because of uncertainty of what Commission will do with broadcast stations frequency in regard to allocate them for broadband use, there is not many interest in these stations. It is a good idea for you to have them cancel specially if they are not in operation, because you might be facing fines beside the yearly regulatory fees, so let me know and I will cancel them. You can email me your request for cancellation if you decide to do it.

Mr. Hashemzadeh.,
We spoke several years ago and at that time I informed you that my Father Frank J. Catz had passed away in November of 2005. I have tried to sell these stations, numerous times, that he owned and due to the location and lack of a tower/technology I never got a buyer. We had several interested parties but after doing all the paper work I had to do, pay the licemsing fees it all fell apart. I am NOT responsible for these stations and have NO money to pay any more fees or take any more chances.

I was told that at sometime the governament may be buying these stations. Would you happen to know anything about this? I would love to sell them to anyone who wants to buy them. I was told at one time both stations together would be worth between 5000 and 10,000 dollars. I would be willing to let them go to someone who could use them. If you should know of someone who is in the MI area and could use them, or want them please have them contact me at 602-214-8751 or louise1050@icloud.com. otherwise there is nothing I can do.

Thank you
Louise Dixon
Trustee for Frank J Catz Trust
