Hi Hossein,

Per our discussion today, attached is the situation regarding the Canadian station on virtual channel 26 and physical channel 26. After reviewing the available physical channels used by full service stations, channel 14 is requested as the desired virtual channel for WHNE-LD. Per our discussion again, I examined the 100 km circle around WHNE and found no US stations that use channel 14 as their virtual channel so this should not be a problem.

Regards,
Greg
