HI Hossein,

Looking forward to seeing you next week.

The two licenses above are both analog stations licensed to Eastern New Mexico University. They had digital CPs but they expired and they do not wish to build them. They wish to turn the analog licenses in. (Both of them had silent STA and have gone past the one year deadline anyway). Do you need anything else other than this email like a letter on their letterhead to the FCC Secretary or similar?

Regards,
Greg
