Subject: Meredith Petition for Reconsideration

Dear Ms. Kreisman – I am writing to let you know that PMCM does not plan to submit any further responses to the July 11 filing by Meredith Broadcasting or the recent submissions by representatives of Time Warner and Comcast in support of Cablevision's request for delay in compliance with cable carriage obligations. Our position with respect to KVNV's right to on-air and virtual Channel 3 and the absence of any negative consequence to viewers or other stations from its operation on that channel has not changed from our earlier filings on this subject.

Meredith has previously indicated, and we agree, that the matter is now ripe for decision. The filings of the cable companies underscore the need for prompt action since we all share their objective of requiring only one alteration of the cable companies' channel carriage rosters. Since KVNV's anticipated New Jersey sign-on is scheduled for early August, there is some urgency about resolving Meredith's petition in the near future.

Thanks.

Donald Evans
