Special Temporary Authority (STA)
BESTA-20140815ACU

Dear Counsel:

This is in reference to the request filed August 15, 2014, on behalf of Montgomery Broadcasting Company ("MBC"). MBC explains that WPRT-FM's repairs will be completed very soon, but that a little more time is needed to complete the work. The current filing requests continued use of a temporary antenna, mounted lower on the tower at the licensed transmitter site, to maintain reduced operations by FM translator W271AB on Channel 271 while the licensed facility is in use by WPRT-FM. Such operation was authorided by the staff's May 19, 2014 letter regarding W271AB.

The request for STA extension IS HEREBY GRANTED. Station W271AB may continue to operate with the following temporary facilities:

Coordinates	36° 08' 27" NL, 86° 51' 56" WL (NAD 27)
Channel	271 (102.1 MHz)
Effective radiated power:	0.090 kilowatts (H&V)
Antenna height:	
above ground:	93 meters
above mean sea level:	299 meters
Above average terrain:	126 meters
Antenna Structure Registration No.:	1050735

The previous STA request also requested authority for the translator STA facility to relay co-owned WBUZ HD3 in place of WPRT-FM HD2, during the STA period. We have no objection to this change during the term of the STA. When licensed operations resume, the primary station for this translator shall revert back to WPRT-FM HD2.
