Subject: Resumption of Service - WNVA-FM - Pursuant to STA
Date: Sunday, February 08, 2015 12:52:19 AM

Hello Mr. Bickel,

Pursuant to the STA (BSTA-20141120ADA) granted January 6, 2015, WNVA-FM (Facility #54886) at Norton, Virginia, resumed broadcast operations on February 8, 2015. The temporary facilities were build and the station is being operated with parameters specified by the STA.

We have also filed notice of Resumption of Operations through the Commission's CDBS Informal Menu system

We are most appreciative of your help in facilitating this Special Temporary Authority.

Please let me know if you have questions or need more information regarding this matter.

Respectfully,

Roger

Subject: Re: STA Application Filed - WNVA-FM

Hello Mr. Bickel,

I had told you I would update you on our efforts to clear the past due accounts of Radio Wise, Inc. We have now paid all the past due fees that were causing a "Red Light" hold on application processing for WNVA-AM/FM, and the payments appear to have been processed at the Commission.

Hopefully, we can now move forward with the STA request.

Please let me know if there is anything I can do to be helpful.

Roger

Roger:

The STA request looks acceptable, however it cannot be approved at this time due to a "red light" in the filing system. This usually means some unpaid fee obligation to the Commission, that must be resolved before any further authorizations are granted to the licensee. Please ask the licensee to contact Roland Helvajian, roland.helvajian@fcc.gov (202)-418-0444; Roland can provide details about the problem and how to fix it.

Subject: STA Application Filed - WNVA-FM

Hello Mr. Bickel,

Today we filed an application (File # BLSTA 20141120ADA) seeking Special

Temporary Authority to operate WNVA-FM with facilities and location at variance with its license. The station recently lost its transmitter site in a bank foreclosure and has been off the air since August. We are working to restore the station to service and will appreciate any help you can give on the STL request.

If you have any questions, please call me at 423-794-0857.

Thank you,

Roger Bouldin
