Re: Intelli LLC (Intelli)
KSPA(AM), Ontario, CA
Fac. ID No.: 13899
Special Temporary Authority (STA)
BESTA-20211227AAE

Dear Mr. Do:

This is in reference to the request filed on December 27, 2021. Intelli requests an extension of the STA granted on April 20, 2021, to continue operating from an alternate site with a temporary roof top antenna to allow time to file the required FCC Form 301 application, due to loss of the licensed site and removal of the towers last year.¹ In support of the request, we noted that Intelli did not file the application over the past six months.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

The previous STA expired on October 17, 2021, therefore the authority granted herein does not cover the period between that date and the filing date of this request, and is without prejudice as to whatever action the Commission may take with respect to operation of the station during the foregoing period.

Accordingly, the request for extension of the STA is hereby GRANTED, and Intelli may continue to operate with the following facilities:

Geographic coordinates	34° 04' 00" N, 117° 40' 10" W (NAD 1927)
Frequency	1510 kHz
Hours of operation	Daytime and Nighttime

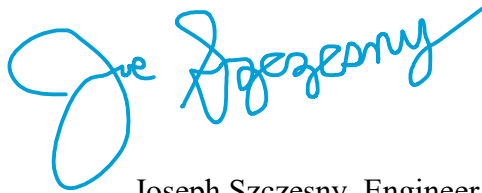

¹ KSDO(AM) is licensed for DA operation on 1130 kHz with 10 kW (day and night) using different patterns.

Operating power	0.010 kW
Antenna type Information	Station Specialist AN16 (ANXX) antenna
Electrical height of radiator	7 electrical degrees

Intelli must reduce power or cease operation if complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310. Intelli must submit an e-mail to my attention to note the date the application was filed.

This authority expires on **June 28, 2022**.

Sincerely,

Joseph Szczesny, Engineer
