Angelo O. R. Lopez, President International Broadcasting Corp. Calle Bori #1554, Urb Caribe San Juan, PR 00927

Re: International Broadcasting Corp. (IBC)

WRSJ(AM), San Juan, PR

Facility Identification Number: 54958 Special Temporary Authority (STA)

BESTA-20220131AAG

Dear Mr. Lopez:

This is in reference to the request filed on January 31, 2022. IBC requests a further extension of the STA granted on February 27, 2019, to continue ND operation to allow time to file the required FCC Form 301 application to make permanent changes to the directional antenna system (due to the loss of one tower in 2019). In support of the request, IBC stated that it plans to file the application to propose a new two tower directional facility as soon as possible.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA is HEREBY GRANTED, and IBC may continue ND operation (day and night) using a maximum of 1 kW. IBC must reduce power or cease operation if complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR §1.1310.

This authority expires on August 10, 2022.

¹ WRSJ(AM) is licensed for DA operation on 1520 kHz with 25 kW (day and night) using the same pattern.

Sincerely,

Joseph Szczesny, Engineer

Audio Division Media Bureau
