

2/15/2020

To Whom it may Concern,

This letter is a silent (STA) request for W290AL, Fax ID 86124 for technical reasons.

W290AL suffered equipment failure on Saturday, Feb 13th. It was determined that the equipment is not repairable. W290AL has a current construction permit to build a new facility (MOD 0000156759).

It is the licensee's intention to either have service restored at the current site, or complete construction of the new site as soon as weather and supply chain availability allows.

The licensee believes that an STA for a minimum of 90 up to a maximum of 120 days would be in the Public Interest in order to restore service to this facility.

Thank you,

A handwritten signature in blue ink, appearing to read "Chris D Tarr", followed by a long horizontal flourish.

Christopher D Tarr CSRE, DRB, AMD, CBNE
