Re: IHM Licenses, Inc. (IHM)  
WMT(AM), Cedar Rapids, IA  
Facility Identification Number: 73593  
Special Temporary Authority (STA)  
BESTA-20220217AAB

Dear Mr. Langham:

This is in reference to the request filed on February 17, 2022. IHM has requested a final extension of the STA granted on August 12, 2020, to continue to operate with parameters at variance based upon the pending application BMML-20210819AAG.<sup>1</sup> In support of the request, we noted that the application to update all operating parameters remains under review at this time.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and IHM may continue to operate with the parameters provided in the application with reduced power if needed to maintain both patterns within the previous license. IHM must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

---

<sup>1</sup> WMT(AM) is licensed for operation on 600 kHz with 5 kW ND day and DA night.

This authority expires on **August 21, 2022.**

Sincerely,

A handwritten signature in blue ink that reads "Joe Szczesny". The signature is fluid and cursive, with a large initial "J" and a long, sweeping underline.
