Extension of Experimental Authority for a Radio Broadcast

Station

Audio Division, Media Bureau

Date: March 11, 2022
File Number: 20220218AAB
Callsign: WUSF(FM)
Facility ID Number: 69122

An extension of the Experimental Authority granted April 9, 2018 under file number 20180316ABU, is GRANTED, subject to all the terms and conditions specified in the original Experimental authorization. The licensee is responsible for addressing any complaints of interference that may arise.

This extended authority expires **April 9, 2023**.

Authorized by: Rodolfo F. Bonacci
Assistant Division Chief

A copy of this e-mail will be posted in the FCC's CDBS database under the file number above. Please retain a copy of this authorization for your records.

Considerations:

Licensee must take all steps to ensure that workers and the public are not exposed to radiofrequency exposure in excess of the Commission's exposure limit.

This Experimental Authority does not supersede any non-FCC-regulated requirements applicable to the STA-authorized facility. The licensee remains solely and wholly responsible for maintaining compliance with such requirements.

A report detailing the methodology employed and the results obtained must be submitted within 90 days following the conclusion of the experimental operation.

USF received its initial experimental authorization for WUSF(FM) digital operation using asymmetric digital sideband powers on April 9, 2018. Pursuant to Section 5.71(c) of the Commission's rules, a broadcast experimental authorization is issued for a one year period and may be renewed for an additional term not exceeding five years upon an adequate showing of need. Upon expiration of this experimental authority, WUSF(FM) experimental operation using asymmetric digital sideband powers will have reached the five year renewal limit set forth in Section 5.71(c), and no further renewals of this authority will be granted.
