To Whom It May Concern:

Calvary Broadcasting, Inc. is writing in regards to **Call Sign: WCGF-LP Facility ID: 197418 FCC Registration Number: 0017003286**. We would like to formally request to Extend Silent STA. Previously using CDBS we had requested Silent STA (see File Number: BLSTA - 20211004AAD) with the expectation that we would be back on the air quickly. However, our engineer has been completely tied up due to the recent FCC filing window and follow-up engineering modifications. So he hasn't been able to process our request. We anticipate him being able to review our situation shortly and hope to resume broadcasting once he is able to locate a better tower on which we can broadcast.

Thank you for the consideration.

Sincerely,

Jonathan Krueger
