

## Federal Communications Commission Washington, D.C. 20554 March 23, 2022

Rick Jesse, National Director of Engineering KXOJ, Inc. 2448 E. 81st St., Suite 5500 Tulsa, OK 74137

Re: KXOJ, Inc. (KXOJ)

KYAL(AM), Sapulpa, OK

Fac. ID No.: 35974

Special Temporary Authority (STA)

BESTA-20220303AAH

## Dear Mr. Jesse:

This is in reference to the request filed on March 3, 2022. KXOJ requests an extension of the STA granted on March 9, 2021, to continue operating with a temporary ND antenna with reduced power to allow time to complete all required repairs to the ATU and ground system,<sup>1</sup> In support of the request, KXOJ stated that additional time will be needed.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA is HEREBY GRANTED, and KXOJ may continue to operate ND using one of the licensed towers with a reduced daytime power of 0.625 kW and 0.022 kW nighttime. KXOJ must reduce power further or cease operation if complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR §1.1310. KXOJ must submit an e-mail to my attention to note the date an FCC Form 302

<sup>&</sup>lt;sup>1</sup> KYAL(AM) is licensed for DA operation on 1550 kHz with 2.5 kW daytime, using the same pattern at night with a reduced power of 0.04kW.

application was filed to update all operating parameters, or to note the date the station was able to resume licensed operations per BL-19871215AB with negligible changes.

This authority expires on September 22, 2022.

Sincerely,

Joseph Szczesny, Engineer

Audio Division Media Bureau
