Dear Ms. Dortch:

On behalf of the University of Massachusetts (the "Licensee"), the undersigned respectfully requests a further extension of special temporary authority to operate at variance from the License's licensed parameters for a period up to six months beyond the current expiration date of May 3, 2022. Below is a description of the reasons for such request which constitute good cause:

As referenced in prior extension requests, WFPB was required to seek approval of the construction of the facilities authorized in FCC File No. BP-20200511AAR from the Town of Orleans, Massachusetts. The Town of Orleans granted their approval of the construction on October 5, 2021 and the engineering firm ordered parts in anticipation of constructing the facilities. However, the Town of Orleans has not yet issued the permit to allow the licensee to begin work on the construction. The STA anticipates that the permit will be issued and construction will be complete within the next several months. Accordingly, WFPB respectfully requests a further extension of the STA to allow time for the construction to be completed.

Please contact the undersigned should you have any questions regarding this request.

Best regards,
