Re: Radio License Holding CBC, LLC (RLH)
WSKO(AM), Syracuse, NY
Facility Identification Number: 50515
Special Temporary Authority (STA)
BESTA-20220317AAC

Dear Mr. Denning:

This is in reference to the request filed on March 17, 2022. RLH requests a further extension of the STA granted on September 22, 2021, to continue operating ND at night with reduced power to allow time to replace the sample lines, antenna monitor, and repair the ground system.¹ In support of the request, RLH stated additional time is needed to complete repairs (and then file the required FCC Form 302 application to update all operating parameters).

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and RLH may continue to operate with the licensed 5 kW ND operation daytime, and with a maximum of 1.25 kW at night using the daytime tower. RLH must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the

¹ WSKO(AM) is licensed for operation on 1260 kHz with 5 kW daytime (ND) and nighttime (DA).

Commission's exposure guidelines. *See* 47 CFR § 1.1310. RLH must submit an e-mail to my attention to note the date the application was filed due to the replacement of the sample lines, antenna monitor, and ground system repairs.

This authority expires on **September 24, 2021**.

Sincerely,
