

Silent STA Request

W258CM

FAC ID: 153013/FRN: 0019393024

4/8/2022

David R. Magnum, licensee of translator W258CM respectfully requests a Silent STA.

W258CM's current facility is on the roof of a restaurant, in a metal enclosure. Access to the site is exceptionally difficult, requiring ladders or lifts to get to where the equipment is located. The licensee is concerned for the safety of his employees trying to access the facility.

The licensee has a Construction Permit to move the station to a safer, easily accessible area where the licensee can continue to provide reliable service.

It is believed that a 180 day STA will permit the licensee to restore programming from the new location.

Thank you

A handwritten signature in blue ink, appearing to read "Chris Tarr", with a long horizontal flourish extending to the right.
