In re: KJCC(FM), Carnegie, OK  
Facility ID# 122517  
Calvary Chapel of Twin Falls, Inc.  
BPED-20080804AAG

Dear Applicant:

This letter is in reference to the above-captioned minor change application to modify effective radiated power, antenna height and location.

The proposed directional antenna pattern violates 47 C.F.R. § 73.510. Section 73.510(a) states that noncommercial educational stations must comply with 47 C.F.R. § 73.316. Specifically, Section 73.316(b)(2) states that “[d]irectional antennas used to protect short-spaced stations pursuant to § 73.213 or § 73.215 of the rules, that have a radiation pattern which varies more than 2 dB per 10 degrees of azimuth will not be authorized.” It has been the Commission’s longstanding policy to apply the 2 dB/10° limitation to noncommercial educational stations protected under the analogous contour overlap section, 47 C.F.R. § 73.509. The proposal violates this requirement. The violation occurs between the azimuths of 100° to 110° the proposed radiation pattern varies by 2.1 dB. It is necessary to note that these azimuths are in the direction of a station where a directional antenna is necessary to prevent any prohibited overlap.

In light of the above, Application BPED-20080804AAG is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a) and is **HEREBY DISMISSED**. These actions are taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

Rodolfo F. Bonacci  
Assistant Chief
