Re: W292DV (FX), New York, New York (FAC# 155888);
Request for Special Temporary Authority.

Dear Madam Secretary:

On the behalf of Apple 107.1. Inc., ("Apple"), the Licensee of W292DV (FX), New York, New York (FAC# 155888) (the "Station" or "W292DV"), this is to respectfully request Special Temporary Authority ("STA") in which to operate at the reduced power of 3 watts from a temporary location. Technical exhibits are attached.

This STA has become necessary as the Station location for implementation of new Channel 300 as authorized by LMS-00001866888 has been delayed. W292DV (new W300EI), must return to the air on or before May 2, 2022 (See BLSTA-20211214AAA). While Apple hopes to have the Station built out and operating prior to that deadline, out an abundance of caution, it proposes temporary operations at this proposed STA location to break the silent status of the Station. Considering the forgoing, Apple respectfully requests up to sixty (60) days in which to operate at reduced power from the temporary location. Because of the looming license deadline, we respectfully request **expedited processing**.

Attached hereto is an Anti-Drug Certificated signed by Counsel. Pursuant to FCC *Public Notice*, DA 22-29, (released January 11, 2022) (the "Public Notice") this instant STA Request is being submitted by e-mail to audiofillings@fcc.gov. Should there be any questions regarding this STA Request, please feel free to contact this Office.

Very truly yours,

John C. Trent

ANTI-DRUG ABUSE ACT CERTIFICATION

The Applicant certifies that, in the case of an individual applicant, he or she is not subject to a denial of federal benefits pursuant to section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. §853a, or, in the case of a nonindividual applicant (*e.g.*, corporation, partnership or other unincorporated association), no party to the application is subject to a denial of federal benefits pursuant to that section. For the definition of a "party" for these purposes, *see* 47 C.F.R. §1.2002(b).

Yes [X] **No** [ ]

Name of Applicant: Apple 107.1, Inc.	**Signature**:
Date: 04/11/2022	**Title**: Counsel

APPLE 107.1, Inc.

W292DV will be a fill in service for WXMC-AM, at 3 watts

40-42-57.3N

74-02-03.5W

174 AGL

164 HAAT

We are asking for this STA because we are running out of time and this will revitalize our license until we can get the install completed at 55 Water Street location. Tammy Celenza had 2 emergency brain surgeries in February which had to take priority. We had to get the equipment ordered and it took us longer to get the equipment in hand because of the lead time to produce and ship the equipment.

We are asking for your assistance so we have the time needed to construct the translator.

WAIVER REQUEST This engineering statement is prepared on behalf of (Apple 107.1, Inc. Apple.). Apple request a STA to their licensed FM translator W292DV New York, NY. Facility ID 155888 . Apple proposes 3 watts E.R.P., the antenna pattern. This proposal is within the service contour of station WQXR and WLTW Apple is requesting for a waiver of section 74.1204 of the rules towards stations WQXR and WLTW. The signal level at the site of Apple worst case scenario is WQXR fm station is a 98 DBU (50,50) the translators interfering contour is 40 DBU (50,10) which together would be the worst-case scenario 138 DBU (50,10). Using the undesired-to desired method for the purpose of determining lack of interference for an FM translator. The proposed interfering contour with respect to station WQXR is 138 DBU See attached FREE SPACE STUDY Apple interfering contour doesn't touch the rooftop, ground or population the antenna is mounted on a pole which is above a mechanical room above the roof at 10 meters Apple is respectfully requesting a waiver.
