Ms. Denise Williams, Room 4.360
Audio Division, Media Bureau
Federal Communications Commission
45 L Street NE
Washington, DC 20554

Dear Ms. Williams:

Please reference my previous letters to you on August 23, 2021 and November 2, 2021.

Howard Fine of the Southern California Frequency Coordinating Committee, who advises me from time-to-time on FCC matters, notified me that our station is still listed as Silent by the FCC. This is an oversight on my part in failing to write you that KTGY-LP is back on-air.

By way of background, after the transmitter failure on October 26, 2021, we began securing funds for a new transmitter (Technilogix TXF-300). On December 8, 2021 we received delivery of the new transmitter and began testing it before deployment. On December 16, 2021, KTGY-LP began transmitting during our normal 6:00 am to 10:00 am Timeshare period.

Please update our Silent status on the FCC website.

Thank you for your attention to this matter.
