Shenandoah, IA 51601

Re: Family Stations, Inc. (FSI)
WFME(AM), New York, NY
Facility Identification Number: 29024
Special Temporary Authority (STA)
BESTA-20220419AAF

Dear Ms. Burkhiser:

This is in reference to the request filed on April 19, 2022. FSI requests an extension of the STA originally granted on October 27, 2020, and last modified on October 22, 2021 to continue operating from an alternate site to allow time to file the required FCC Form 301 application.¹ In support of the request, we noted that FSI will require additional time to file the application to propose a new permanent facility for this 50 kW Class A station.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and FSI may continue to operate with the following facilities:

Geographic coordinates	40° 47' 18" N, 74° 15' 19" W (NAD 1927)
Frequency	1560 kHz
Hours of operation	Day and Night
Operating power	1 kW

¹ WFME (AM) is a Class A station licensed for DA operation on 1560 kHz with 50 kW day and night, using different directional antenna patterns.

Antenna type	Existing WNSH/WFMU tower with slant wire feed
ASRN	1045804
Overall height above ground	62 meters
Electrical height of radiator	116.1°
Antenna Efficiency	225 mV/m per kW at 1 km

FSI must reduce power or cease operation if complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See 47 CFR §1.1310.*

This authority expires on **October 19, 2022.**

Sincerely,

Joseph Szczesny, Engineer
