RE: W218CW West Palm, FL
Facility ID# 155996

To the Honorable Ms. Dortch;

FM station W218CW (FIN: 20853), licensed to Family Stations, Inc. (FSI) as a noncommercial, educational station to serve the West Palm, FL, community, went to reduced power of about 79% (or 0.225 kW) on 3/27/2022. This reduced power was due to lightning strike damage caused to a transmitter power supply.

FSI gave the Commission Notice of reduced power in a letter while WFLV was down for repairs for replacement of the primary station coax. The station's local engineer plans to replace the power supply of W218CW and pending such, FSI anticipates that the station will return to normal operation as soon as possible. In the interim, the license respectfully requests Commission grant of an Engineering STA to operate at reduced power to continue to serve the West Palm community with minimal impact.

The operation of W218CW, as proposed under this STA Request, will not have a significant environmental impact and complies with the Maximum Permissible Radio Frequency Electromagnetic Exposure Limits for controlled and uncontrolled environments. The licensee of W218CW also certifies that it, in coordination with other potential users of the relevant site, will reduced power or cease operation as necessary to protect persons having access to the site, tower, or antenna from radio frequency electromagnetic exposure in excess of FCC guidelines.

The applicant certifies that neither applicant nor any party to the application is subject to denial of federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. Section 862.

I hereby certify on behalf of the President of Family Stations, Inc., Thomas Evans, that the statements in this application are true, complete, and correct to the best of my knowledge and belief and are made in good faith.

Sincerely,

A handwritten signature in cursive script that reads 'Jennifer D. Burkhiser'.
