Kenneth I. Trujillio, President Aztec Capital Partners, Inc. El Zol Media 4322 N. 5th St. Philadelphia, PA 19140

> Re: Aztec Capital Partners, Inc. (ACP) WNWR(AM), Philadelphia, PA Facility Identification Number: 1027 Special Temporary Authority (STA) BESTA-20220425AAH

Dear Mr. Trujillio:

This is in reference to the request filed on April 25, 2022. ACP requests a further extension of the STA granted on February 21, 2020, to continue operating using the existing WHAT tower with a reduced daytime power to allow time to file a new FCC Form 301 application.¹ In support of the request, ACP stated that it plans to file the application very soon.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and ACP may continue to operate with the facilities specified in BP-20190201AAO using a reduced daytime power of 1.2 kW, along with the previously authorized 1.2 kW critical hours and 0.007

¹ WNWR(AM) is licensed for DA operation on 1540 kHz with 50 kW day and 0.25 kW night, and BP-20190201AAO previously authorized ND operation using the WHAT tower with 10 kW day, 1.2 kW critical hours, and 0.007 kW night.

kW nighttime power levels (since a new 301 application is being filed). ACP must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR §1.1310.

This authority expires on November 5, 2022.

Sincerely, geny 102

Joseph Szczesny, Engineer Audio Division Media Bureau
