In re: Fairview Broadcasting Inc.
WPFD(AM), Fairview, TN
Facility Identification No.: 57044
File No. BMS-20070226AFV

Dear Mr. Almon:

This is in reference to the above-captioned February 26, 2007 request to reissue the last license and presunrise/postsunset authorization (PSRA/PSSA) for station WPFD.

A preliminary review reveals that our staff was unable to locate an official complete copy of the last license (BL-19820517AQ) and the last PSRA/PSSA. This appears to be due to the 1998 license cancellation and the 2004 renewal application problems. As a result, the licensee must file a direct measurement (DM) of power application on FCC Form 302 to provide the current operating parameters (will allow our staff to create a new updated electronic version of the license). We will not be able to recreate the old PSRA/PSSA at this time, therefore that matter must be addressed at a later date.

Further action on the request will be withheld for a period of thirty days from the date of this letter to allow the licensee time to file the DM application. Failure to file the DM application within the given time period will result in the dismissal of the request pursuant to 47 C.F.R. § 73.3568(a).

Sincerely,

Son Nguyen
