Re: Salem Communications Holding Corporation
(Salem)
WORL(AM), Orlando, FL
Facility Identification Number: 48731
Special Temporary Authorization (STA)
BESTA-20220520AAG

Dear Mr. Henderson:

This is in reference to the request filed on May 20, 2022. Salem requests a further extension of the STA granted on July 28, 2010, to continue operating with an increased nighttime nominal power of 10 kW to overcome interference from co-channel station CMBD, La Habana, Cuba.¹ In support of the request, Salem stated that the interference continues.

Accordingly, the request for extension of the STA is GRANTED, and Salem may continue to operate using the licensed nighttime DA antenna system with an increased nominal power of 10 kW (with no change to the licensed daytime ND operation). Salem must reduce power or cease operation if complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR §1.1310. This authority will terminate automatically upon cessation of operation by the Cuban station, or upon Commission notice to resume licensed operations per the last license (BZ-20090225ADM).

This authority expires on **November 26, 2022**.

Sincerely,

A handwritten signature in blue ink that reads "Joe Szczesny".

Joseph Szczesny, Engineer
