**Re: ABC Radio Los Angeles Assets, LLC
Request for Engineering STA
KRDC(AM), Facility ID No. 25076, Pasadena, CA**

Dear Ms. Dortch:

Pursuant to section 73.1635 of the rules of the Federal Communications Commission,¹ ABC Radio Los Angeles Assets, LLC, licensee of AM Station KRDC, Facility ID No. 25076, Pasadena, CA, by its attorneys, hereby submits this request for engineering Special Temporary Authority to permit operations as described in the attached Engineering Statement.

Attached hereto is the requisite Anti-Drug Abuse Act Certification. Should you have any questions regarding this request, please contact the undersigned.

Respectfully submitted,

/s/ Steven A. Rowings

Steven A. Rowings

Counsel to ABC Radio Los Angeles Assets, LLC

¹ 47 C.F.R. § 73.1635.

ANTI-DRUG ABUSE ACT CERTIFICATION

Answer YES if all parties to the application are in compliance with Section 5301 of the *Anti-Drug Abuse Act of 1988*, 21 U.S.C. Section 862, the federal law which provides federal and state court judges the discretion to deny federal benefits to individuals convicted of offenses consisting of the distribution of controlled substances. For a definition of "party" for these purposes, see [47 C.F.R. Section 1.2002\(b\)](#). See also *Amendment of Part 1 of the Commission's Rules to Implement Section 5301 of the Anti-Drug Abuse Act of 1988*, 6 FCC Rcd 7551, 57 Fed. Reg. 00186 (1991).

_____ X _____ YES NO _____

By checking yes, the applicant certifies that, in the case of an individual applicant, he or she is not subject to a denial of federal benefits that includes FCC benefits pursuant to Section 5301 of the *Anti-Drug Abuse Act of 1988*, 21 U.S.C. 862, or, in the case of a non-individual applicant (e.g., corporation, partnership or other unincorporated association), no party to the application is subject to a denial of federal benefits that includes FCC benefits pursuant to that section. For the definition of a party for these purposes, see 47 C.F.R. Section 1.2002(b).

I certify that the statements made in this application are true, complete, and correct to the best of my knowledge and belief, and are made in good faith.

Call Sign of Station and Type of Request (Special Temporary Authority, etc.)

**ENGINEERING STATEMENT OF CARL T. JONES, JR., P.E.
IN SUPPORT OF A
REQUEST FOR SPECIAL TEMPORARY AUTHORITY
KRDC(AM) – PASADENA, CALIFORNIA
1110 kHz – 50.0 kW DAY, 20.0 kW NIGHT, DA-2, U
FACILITY ID: 25076**

LICENSEE: ABC RADIO LOS ANGELES ASSETS, LLC

I am a Consulting Engineer and president of Carl T. Jones Corporation, with offices located in Springfield, Virginia. My education and experience are a matter of record with the Federal Communications Commission. I am a Registered Professional Engineer in the Commonwealth of Virginia, Registration No. 013391.

This office has been authorized by ABC Radio Los Angeles Assets, LLC (“ABC Radio LA”), licensee of AM Station KRDC, Pasadena, California, to prepare this engineering statement in support of a Request for Special Temporary Authority. KRDC is licensed to operate on 1110 kHz with a daytime power of 50.0 kW and a nighttime power of 20 kW. The station uses different directional patterns for its daytime and nighttime operations (DA-2).

Good Karma Broadcasting, L.L.C. (“Good Karma”), the licensee of AM Station KSPN, Los Angeles, California, has been granted a construction permit to relocate the KSPN transmission facilities to the KRDC transmitter site and duplex on the KRDC towers.¹ Good Karma is preparing to implement the KSPN construction permit which will require equipment to be installed and adjusted at the base of all five of the KRDC towers.

¹ FCC Construction Permit BP-20200914AAV granted January 5, 2021.

In order to facilitate the implementation of the KSPN Construction Permit and to protect workers during the installation and adjustment of the required diplexing equipment, it will be necessary to operate KRDC non-directionally or at reduced power. Further, it is expected that the installation of the diplexing filters will result in KRDC operating at variance with its license parameters until such time that all construction and adjustments are completed and the KRDC directional operations can be restored to a licensed condition. Therefore, special temporary authority is requested to operate KRDC: 1) nondirectionally during daytime and nighttime hours at a power no greater than 25% of the authorized power; 2) directionally during daytime and nighttime hours with parameters at variance; and 3) directionally at reduced power during daytime and nighttime hours, as necessary.

Once the KSPN transmission facilities are constructed and adjusted in compliance with the terms of the construction permit and the KRDC directional patterns have been restored to a licensed condition, an Application to Return to Direct Measurement of Power (FCC Form 302) will be filed requesting new daytime and nighttime operating parameters.

This statement was prepared by the undersigned and the information herein is believed to be true and correct.

DATED: May 26, 2022
