

Federal Communications Commission Washington, D.C. 20554 August 4, 2022

Rehan Siddiqui, Managing Member FM Media Ventures LLC 6161 Savoy Drive Houston, TX 77036

> Re: FM Media Ventures, LLC (FMMV) KGOL(AM), Humble, TX Facility Identification Number: 34473 Special Temporary Authority (STA) BESTA-20220726AAF

Dear Mr. Siddiqui:

This is in reference to the request filed on July 26, 2022. FMMV requests an extension of the STA granted on January 31, 2022, to continue operating with a long wire antenna at an alternate site to allow time to file the required FCC Form 301 application (due to sale and redevelopment of the licensed site).¹ In support of the request, we noted that FMMV will require additional time to file the application to propose a new permanent facility.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and FMMV may continue to operate with the following facilities:

Geographic coordinates Frequency Hours of operation 29° 49′ 33″ N, 95° 22′ 37″ W (NAD 1927) 1180 kHz Daytime only

¹KGOL(AM) is licensed for DA operation on 1180 kHz with 50 kW day and 3 kW night using different patterns.

Operating power Antenna type

Overall height above ground level

0.10 kW (Daytime) 241 feet of #6 wire vertically mounted on an existing tower 75.9 meters

FMMV must reduce power or cease operation if complaints of interference are received, and must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

This authority expires on February 3, 2023.

Sincerely, pe

Joseph Szczesny Electronics Engineer Audio Division Media Bureau
