Chief, AM Branch, Audio Service Division
Mass Media Bureau, Room 342
Attention: Diane Ladson, AM Services
Federal Communications Commission
Washington, D.C. 20554

Ms. Ladson,

We are in receipt of the Pre Sunrise and Post Sunset Authority dated 2-24-97.

We intend to begin operating as authorized at 36.8 watts nighttime, and the authorized Pre Sunset and Post Sunset parameters. ✓

To achieve necessary power reduction, we intend to drop plate voltage in the main transmitter for Pre Sunrise, and to use a second low-power transmitter for Post Sunset and Nighttime operation.

Thank you,

Arnie Roblan
