In re: W229AN, Providence, RI
BPFT-20081103AAA
Facility ID No. 156667

Dear Applicant:

This refers to the above-captioned application for W229AN, Providence, Rhode Island.

An engineering study of the application reveals that it is in violation of 47 C.F.R. § 74.1231(b). A translator providing fill-in service may use any terrestrial facilities to receive the signal that is being rebroadcast. Furthermore, a noncommercial educational FM translator station that is operating on a reserved channel (Channels 201-220) and is owned and operated by the licensee of the primary station it rebroadcasts may use alternative signal delivery means.

The application proposes to rebroadcast commonly owned primary station WJWT (BLED-20060623ABM) on Channel 229 and deliver the signal via an alternative method. The proposed facility (BPFT-20081103AAA) will neither operate on a reserved channel nor is it fill-in to primary station WJWT. Accordingly, the application will be dismissed.

In light of the above, the application BPFT-20081103AAA filed by Calvary Radio Network, Inc. is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a) and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

James D. Bradshaw
Deputy Chief
