Engineering STA

Dear Sir or Madam:

Hoosier AM/FM, LLC hereby files this request for extension of the existing Engineering STA for WBAT(AM) to operate at variance to the station's licensed facility (File No. BSTA-20220315AAJ). As discussed in the original request for an Engineering STA for WBAT, a storm severely damaged the tower for WBAT. Consequently, WBAT is required to operate at variance to the station's licensed facilities. Hoosier AM/FM proposed to operate WBAT with a 140-foot-long steel wire strung horizontally between two 25-foot-high poles with 500 watts. On March 22, 2022, the FCC granted the Engineering STA request.

On March 16, 2022, Hoosier AM/FM filed an application for construction permit specifying new facilities for WBAT to address the damage to the licensed facilities. On May 31, 2022, the FCC granted the permit application. Hoosier AM/FM is undertaking the preparatory work for construction of the new facilities pursuant to the new construction permit, including ordering any transmission equipment and hiring professionals to construct the facilities.

Attached is the requisite Anti-Drug Abuse Certification.

Please contact our attorney, David G. O'Neil at 202-955-3931 or doneil@rinioneil.com if there are any questions regarding this matter or if additional information is needed.

Respectfully submitted,

HOOSIER AM/FM, LLC
