Re: Radio License Holding CBC, LLC (RLH)
WSKO(AM), Syracuse, NY
Facility Identification Number: 50515
Special Temporary Authority (STA)
BESTA-20220923AAC

Dear Mr. Denning:

This is in reference to the request filed on September 23, 2022. RLH requests a further extension of the STA granted on September 22, 2021, to continue operating ND at night with reduced power to allow time to file the required FCC Form 302 application to update all operating parameters.¹ In support of the request, RLH stated additional time is needed to review measurements after replacing the antenna monitor and sample lines.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

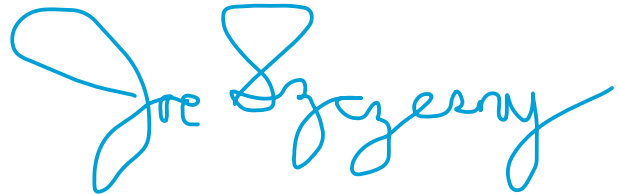

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and RLH may continue to operate ND daytime using the licensed 5 kW antenna system, and ND at night with a maximum of 1.25 kW (using the daytime tower). RLH must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess

¹ WSKO(AM) is licensed for operation on 1260 kHz with 5 kW daytime (ND) and nighttime (DA).

of the Commission's exposure guidelines. *See* 47 CFR § 1.1310. RLH must submit an e-mail to my attention to note the date the application was filed (to verify no further STA operation will be needed).

This authority expires on **March 27, 2023**.

Sincerely,

A handwritten signature in blue ink, appearing to read "Joe Szczesny". The signature is fluid and cursive, with a large initial "J" and "S".
