Re: Steel City Radio, Inc. (SCR)  
WWNL(AM), Pittsburgh, PA  
Fac. ID No.:18517  
Special Temporary Authority (STA)  
BESTA-20220926AAA

Dear Mr. Wilkins:

This is in reference to the request filed on September 26, 2022. SCR requests a final extension of the STA granted on September 2, 2021, to continue operating ND with reduced power to allow time to file the required FCC Form 302 application to update all directional operating parameters.<sup>1</sup> In support of the request, SCR stated that the project is nearing completion, and that additional time will be needed to finish the remaining repairs/modifications before filing the application.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA is hereby GRANTED, and SCR may continue operating ND with a maximum of 12.5 kW daytime and 6.25 kW during critical hours. SCR must reduce those power levels further if complaints of interference are received, and must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

---

<sup>1</sup>WWNL(AM) is licensed for DA operation on 1080 kHz with 50 kW daytime, and using the same DA pattern during critical hours, with a reduced power level of 25 kW.

This authority expires on **March 29, 2023.**

Sincerely,

A handwritten signature in blue ink that reads "Joe Szczesny". The signature is fluid and cursive, with a long horizontal stroke extending to the right from the end of the name.
