Re: IHM Licenses, LLC. (IHM)
WWRL(AM), New York, NY
Facility Identification Number: 68906
Special Temporary Authority (STA)
BESTA-20221018AAA

Dear Mr. Langham:

This is in reference to the request filed on October 18, 2022. IHM requests one final extension of the STA granted on November 19, 2020, as last modified, to continue operating ND with reduced power.¹ In support of the request, IHM stated that all required repairs have been completed, and that it requests a final extension until after BMML-20211119AAH has been granted to authorize use of the new day and night DA operating parameters.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and IHM may continue to operate ND using tower #2 (ASRN # 1051682) with a maximum of 6.25 kW day, and 1.25 kW night. IHM must reduce power or cease operation if complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See 47 CFR §1.1310.*

¹ WWRL (AM) is licensed for DA operation on 1600 kHz with 25 kW (day) and 5 kW (night), using different patterns.

This authority expires on **April 18, 2023**.

Sincerely,

A handwritten signature in blue ink, reading "Joseph Szczesny". The signature is fluid and cursive, with a large loop on the left side of the first name and a long, sweeping line extending from the end of the last name.
