Special Temporary Authorization (STA)
BESTA-20221014AAC

Dear Mr. Coman:

This is in reference to the request filed on October 14, 2022. WorthRome requests an extension of the STA granted on April 18, 2022, to continue operating with reduced power.¹ In support of the request, WorthRome stated that additional time will be needed to complete the remaining equipment repairs/replacements and testing.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA IS HEREBY GRANTED, and Worthrome may continue to operate with a reduced power of 0.4 kW, day and night. Worthrome must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR §1.1310. WorthRome must submit a brief e-mail to my attention to note the date the station was able to resume licensed operations per the last license (BL-20081216BLM) with negligible changes to
