Dear Ms. Dortch:

On behalf of Aztec Capital Partners, Inc. (the “Licensee”), the undersigned respectfully requests a further extension of special temporary authority to operate at variance from the License’s licensed parameters for a period up to six months beyond the current expiration date of November 5, 2022. Below is a description of the reasons for such request which constitute good cause:

A further extension of the current STA is requested to provide sufficient time for full power operation to be restored, pursuant to the completion of the construction permit BP-20220601AAG. Since the grant of the STA, the licensee has made substantial progress towards restoring full power operation, completing the construction of the new transmitter building and installation of a new transmitter. As of the date of this request, the Licensee continues to work with the local utility company to complete the necessary three-phase power lines to the new building. Additionally, the licensee has identified that the diplex system may require upgrading but any required updates should be resolved by the time the power line issue is resolved.

Please contact the undersigned should you have any questions regarding this request.

Best regards,

F. Reid Avett
