Description: EXTRAORDINARY CIRCUMSTANCES

This is an application for a further extension of an already existing engineering STA (see File Nos. BSTA-20211006AAG and BESTA-20220414AAA).

A license to cover WBGX(AM)'s new co-located FM translator W240EI, Facility ID No. 203056 (LMS File No. 0000163147) was granted on November 12, 2021. The addition of the FM antenna, line, and associated items has changed the tower impedance for WBGX(AM).

Impedance measurements have been done and a moments method model for the array has been generated. However, a required final site visit by the consulting engineer has been further delayed due to workload and labor shortages.
