Re: Aztec Capital Partners, Inc. (ACP)
WNWR(AM), Philadelphia, PA
Facility Identification Number: 1027
Special Temporary Authority (STA)
BESTA-20221031AAC

Dear Mr. Trujillo:

This is in reference to the request filed on October 31, 2022. ACP requests a further extension of the STA granted on February 21, 2020, to continue operating using the WHAT tower with temporary parameters to allow time to file the required FCC Form 302 application.¹ In support of the request, ACP stated that substantial progress has been made in order to move forward with the preparation and filing of the application.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and ACP may continue to operate with the ND facilities specified in BP-20220601AAG using a reduced daytime power of 1.2 kW, along with the previously authorized 1.2 kW critical hours and 0.007

¹ WNWR(AM) is licensed for DA operation on 1540 kHz with 50 kW day and 0.25 kW night, and BP-20220601AAG authorized ND operation using the WHAT tower with 10 kW day, 1.2 kW critical hours, and 0.007 kW night.

kW nighttime power levels. ACP must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR §1.1310.

This authority expires on **May 6, 2023**.

Sincerely,

A handwritten signature in blue ink, appearing to read "Joe Szczesny". The signature is fluid and cursive, with a large loop at the beginning and a long, sweeping tail.
