3. Purpose: <input type="radio"/> Engineering STA <input checked="" type="radio"/> Extension of Existing Engineering STA File Number: BSTA - 20210208AAD <input type="radio"/> Legal STA <input type="radio"/> Extension of Existing Legal STA								
4. Service: AM								
5. Community of License: City: GRAHAM State: NC								
6. If this application has been submitted without a fee, indicate reason for fee exemption (see 47 C.F.R. Section 1.1114): <input type="radio"/> Governmental Entity <input type="radio"/> Noncommercial Educational Licensee/Permittee <input type="radio"/> Other <input checked="" type="radio"/> N/A (Fee Required)								
7. Environmental Protection Act. The proposed facility is excluded from environmental processing under 47. C.F.R. Section 1.1306 (i.e., The facility will not have a significant environmental impact and complies with the maximum permissible radiofrequency electromagnetic exposure limits for controlled and uncontrolled environments). Unless the applicant can determine compliance through the use of the RF worksheets in Appendix A, an Exhibit is required. By checking "Yes" above, the applicant also certifies that it, in coordination with other users of the site, will reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic exposure in excess of FCC guidelines.	<input checked="" type="radio"/> Yes <input type="radio"/> No See Explanation in [Exhibit 33]							

8.	Please explain in detail the "extraordinary circumstances" which warrant temporary operations at variance from the Commission's Rules. In addition, please specify 1) the specific rules and/or policies from which the applicant seeks temporary relief; 2) how the public interest will be furthered by grant; and 3) the expected duration of the STA and the licensee's plan for restoration of licensed operation. If requesting variance with other than authorized technical facilities, please specify the exact facilities sought.	[Exhibit 34]
9.	Anti-Drug Abuse Act Certification. Applicant certifies that neither applicant nor any party to the application is subject to denial of federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. Section 862.	<input checked="" type="radio"/> Yes <input type="radio"/> No

I hereby certify that the statements in this application are true, complete, and correct to the best of my knowledge and belief, and are made in good faith. I acknowledge that all certifications and attached Exhibits are considered material representations.

Exhibit 34

Description: STA REQUEST

Please see attached exhibit.

Attachment 34

November 2022 Update:

For the reasons described in the underlying STA (BSTA-20210208AAD), the licensee has been operating WSML(AM) during daytime hours with power reduced to 5 kW and with no nighttime operations.

Since WSML(AM)'s last STA extension (BESTA-20220502AAA), some repairs have been made and WSML(AM) is now able to operate during daytime hours with its licensed power of 10 kW (DA). However, WSML(AM) is still unable to operate at night.

WSML(AM) still intends to relocate to the new site as authorized in its construction permit in FCC File No. BP-20211007AAH. To facilitate WSML(AM) at the new site, the owner of the tower plans to make modifications to the tower site. The tower owner projects that it will be able to make those modifications in the spring of 2023.

Pending relocation to the new site, the licensee desires to continue to operate during daytime hours at WSML(AM)'s current site. As WSML(AM) is now able to operate during daytime hours with its licensed power, the licensee respectfully requests modification and extension of the STA to authorize operation at licensed power of 10 kW (DA) daytime-only using the licensed site daytime tower (with no nighttime operation).

For the foregoing reasons, the licensee respectfully requests modification and extension of STA in accordance herewith to allow the licensee to continue to provide WSML(AM)'s service to the public while it continues to work towards relocation of WSML(AM) to the new site specified in its construction permit.
