Re: Live Communications Inc.(LCI)
WTAL(AM), Tallahassee, FL
Facility Identification Number: 55330
Special Temporary Authority (STA)
BESTA-20221227AAA

Dear Ms. Sanders:

This is in reference to the request filed on December 27, 2023. LCI requests an extension of the STA granted on July 13, 2022, to continue operating from an alternate site with a long wire antenna to allow time to file the required FCC Form 302 application.¹ In support of the request, LCI stated that it plans to complete construction of the new facility this month at the WTLY site.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and LCI may continue to operate with the following facilities:

Geographic coordinates	30° 26' 53" N, 84° 15' 37" W (NAD 1927)
Frequency	1450 kHz
Hours of operation	Unlimited
Operating power	0.250 kW (day and night)
Antenna type	29 m long wire mounted 30 feet AGL and stretching from the studio building to a support pole with guy wires

¹ WTAL(AM) is licensed for ND operation on 1450 kHz with 1 kW day and night, and BP-20220407AAH authorizes use of the existing WTYL tower using the same power levels.

LCI must reduce power or cease operation if complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

This authority expires on **July 8, 2023**.

Sincerely,
