Re: TBLC Media, LLC (TBLC)
WNVL(AM), Nashville, TN
Fac. ID No.: 16898
Special Temporary Authority (STA)
BESTA-20230118AAB

Dear Mr. Janbakhsh:

This is in reference to the request filed on January 18, 2023. TBLC requests an extension of the STA granted on July 22, 2022, to restart operations from an alternate site with a temporary long wire antenna after going silent on November 24, 2022, due to a fire that destroyed the transmitter.¹ In support of the request, TBLC stated that it plans to go back on the air later this week with the same STA parameters as previously authorized using a new transmitter, and then will resume steps to move forward with the required filing of the FCC Form 301 application (due to the loss of the licensed site).

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA is GRANTED, and TBLC may continue to operate with the following parameters:

¹ WNVL(AM) is licensed for ND operation on 1240 kHz with 1 kW day and night.

Geographic coordinates	36° 14' 06" N, 86° 45' 19" W (NAD 1927)
Frequency	1240 kHz
Hours of operation	day and night
Operating power	0.6 kW
Antenna type	45.7 meter vertical long wire attached to existing tower
Theoretical RMS	291.4 mV/m/kW at 1 km

TBLC must reduce power or cease operation if complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310. TBLC must file an electronic resumption notice in LMS within a few days after the station has resumed operations per this engineering STA.

This authority expires on **August 14, 2023**.

Sincerely,

Joseph Szczesny, Engineer
Audio Division
Media Bureau
