BPH-20070606ABW**

Dear Applicant:

This letter refers to: (1) the above-captioned contingent minor change application, as last amended September 19, 2007, to modify the antenna location, effective radiated power, antenna height, and upgrade its class from A to C3; and (2) the contingent June 6, 2007 Petition for Rule Making, also filed by KXOJ, requesting the substitution of Channel 266A for Channel 265A for the vacant allotment at Holdenville, OK, and the reallocation of Channel 265A to Davis, OK. For the reasons set forth below, we dismiss the KXOJ application.

On October 5, 2007, KXOJ's petition for rule making was returned by letter as unacceptable for filing. KXOJ's application was filed as part of a "hybrid" contingent group with this petition for rulemaking. These "hybrid" proposals are subject to the requirements and restrictions that apply to contingent coordinated FM minor change filings.¹ Therefore, the dismissal, denial or return of any component filing will result in the dismissal or return of all the related filings.

Accordingly, in light of the above, Application BPH-20070606ABW IS HEREBY DISMISSED. The action is taken pursuant to 47 C.F.R. Section 0.283.

Sincerely,

**Rodolfo F. Bonacci
