Re: IHM Licenses, LLC (IHM)
KXYZ(AM), Houston, TX
Facility Identification Number: 95
Special Temporary Authority (STA)
BESTA-20230303AAD

Dear Mr. Langham:

This is in reference to the request filed on March 3, 2023. IHM requests a final extension of the STA granted on February 23, 2021, as last modified on June 7, 2022, to continue operating with parameters at variance to allow time for further action to be taken on BMML-20230217AAD.¹ In support of the request, we noted that the application remains pending at this time.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and IHM may continue to operate with DA parameters at variance based upon the pending license application containing the new method of moment proof. IHM must reduce power or cease operation if complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

¹ KXYZ(AM) is licensed for DA operation on 1320 kHz with 10 kW daytime and 5 kW nighttime, using different patterns, and BP-20210125ACC authorizes use of new DA patterns at the KBME transmitter site.

This authority expires on **September 6, 2023**.

Sincerely,

A handwritten signature in blue ink that reads "Joe Szczesny". The signature is fluid and cursive, with the first name "Joe" being larger and more prominent than the last name "Szczesny".
