Re: Fat Dawgs 7 Broadcasting, LLC (FD7B)
KFPT(AM), Clovis, CA
Fac. ID No: 29429
Special Temporary Authority (STA)
BESTA-20230314AAA

Dear Mr. Pacheco:

This is in reference to the request filed on March 14, 2023. FD7B requests a final extension of the STA granted on March 15, 2022, to continue operating with a reduced daytime power of 3 kW to allow time to replace the damaged 5 kW transmitter.¹ In support of the request, FD7B stated that additional time will be needed for the replacement transmitter to be delivered and installed.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and FD7B may continue to operate with a reduced daytime power of 3 kW (with no change to the licensed nighttime 2.5 kW operation). FD7B must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR §1.1310. FD7B must submit a brief e-mail to my attention to certify the date the station resumed licensed operations per BML-20060821AEE with negligible changes to all engineering parameters after the replacement transmitter has been installed.

¹ KPT(AM) is licensed for DA operation on 790 kHz with 5 kW day and 2.5 kW night using different patterns.

This authority expires on **September 19, 2023.** ²

Sincerely,

A handwritten signature in blue ink, appearing to read "Joseph Szczesny". The signature is fluid and cursive, with a large initial "J" and a long, sweeping underline.

²Periods of operation pursuant to this STA shall be recorded in the station's records (see 47 CFR § 73.1820). The records shall include start/stop dates and times of such operation. These log entries must be maintained for a minimum of two years as specified in 47 CFR § 73.1840(a), unless a longer retention period is requested by the staff. Periods of operation may be subject to independent verification that they in fact occurred.
