Re: FM Media Ventures, LLC (FMMV)
KGOL(AM), Humble, TX
Facility Identification Number: 34473
Special Temporary Authority (STA)
BESTA-20230206AAA

Dear Mr. Siddiqui:

This is in reference to the request filed on February 6, 2023. FMMV requests a further extension of the STA granted on January 31, 2022, to continue operating with a long wire antenna at an alternate site to allow time to file the required FCC Form 301 application (due to the loss of the licensed site in 2021 by the former licensee).¹ In support of the request, FMMV stated that it anticipates it will be able to file the application within the next 90 days.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and FMMV may continue to operate with the following facilities:

| | |
|------------------------|---|
| Geographic coordinates | 29° 49' 33" N, 95° 22' 37" W (NAD 1927) |
| Frequency | 1180 kHz |
| Hours of operation | Daytime only |

¹KGOL(AM) is licensed for DA operation on 1180 kHz with 50 kW day and 3 kW night using different patterns.

| | |
|-----------------------------------|---|
| Operating power | 0.10 kW (Daytime) |
| Antenna type | 241 feet of #6 wire vertically mounted on an existing tower |
| Overall height above ground level | 75.9 meters |

FMMV must reduce power or cease operation if complaints of interference are received, and must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

This authority expires on **September 23, 2023**.²

Sincerely,

Joseph Szczesny
Electronics Engineer
Audio Division
Media Bureau

cc: Dan J. Alpert, Esq. (via email only)

²Periods of operation pursuant to this STA shall be recorded in the station's records (see 47 CFR § 73.1820). The records shall include start/stop dates and times of such operation. These log entries must be maintained for a minimum of two years as specified in 47 CFR § 73.1840(a), unless a longer retention period is requested by the staff. Periods of operation may be subject to independent verification that they in fact occurred.
