Re: Pham Radio Communication LLC (PRC)
KVVN(AM), Santa Clara, CA
Facility Identification Number: 28438
Special Temporary Authority (STA)
BESTA-20230320AAD

Dear Mr. Pham:

This is in reference to the request filed on March 20, 2023. PRC requests a further extension of the STA granted on September 29, 2020, to continue operating ND with reduced power to allow time to file the required FCC Form 302 applications for KVVN and KLIV (due to the addition of station KLIV at the transmitter site).¹ In support of the request, PRC stated that additional time will be needed to complete the KLIV installation (before the construction permit expires on September 15, 2023).

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and PRC may continue to operate ND with a maximum of 0.25 kW day and 0.625 kW night. PRC must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310. PRC must submit a brief e-mail to my attention to note the date the 302 applications were filed to verify no further STA operation will be needed for either station. We have set the expiration date below to

¹ KVVN(AM) is licensed for DA operation on 1430 kHz with 1 kW day and 2.5 kW night, using different patterns.

match the KLIV construction permit expiration date, since both are directly related.

This authority expires on **September 15, 2023**.²

Sincerely,

A handwritten signature in blue ink, appearing to read "Joe Szczesny". The signature is fluid and cursive, with the first name "Joe" being more prominent than the last name "Szczesny".

²Periods of operation pursuant to this STA shall be recorded in the station's records (see 47 CFR § 73.1820). The records shall include start/stop dates and times of such operation. These log entries must be maintained for a minimum of two years as specified in 47 CFR § 73.1840(a), unless a longer retention period is requested by the staff. Periods of operation may be subject to independent verification that they in fact occurred.
