Good afternoon,

On behalf of High Desert Broadcasting, LLC, licensee of KUTY(AM), Palmdale, CA (FAC: 22011) we would like to extend our current STA to operate KUTY(AM) at variance from its licensed authorization. While the severe weather conditions in Q1 slowed down our engineering evaluation process and cost analysis, we have now completed the review and have determined that the rehabilitation of the current site and conversion of the facility to a three tower array relicensed with 5kw day and at least 2kw at night is feasible and within our budget, and that we have engaged Ben Dawson, of Hatfield and Dawson Engineering, to prepare the application for this conversion. We anticipate that this application will be completed and submitted within a short time. Upon the granting of a Construction Permit for this conversion, we will proceed with the construction work.

Applicant certifies that neither applicant nor any party to the application is subject to denial of federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. Section 862. Once the FCC file number is generated, the licensee will promptly submit the filing fee for this extension of STA request.

Once the file number is generated, I will submit the required filing fee for this STA extension.

**FRN: 0001529809**

Best regards,  
Tracey
