To Whom It May Concern:

On June 1, 2023, KLMR(AM) began operating at the full power levels authorized in BSTA-20230323AAB.

In a reduced power notification filed in LMS File No. 0000214868 the station indicated that it intended to seek a modification of its existing STA. Due to recent tower work, however, no modification of the existing STA will be necessary.

Please contact me if you have any questions or if a more formal notification regarding the station's power level is needed.

Best,

Derek
