Re: Orlando Radio Marketing, Inc. (ORM)
WNDO(AM), Apoka, FL
Facility Identification Number: 1185
Special Temporary Authority (STA)
BESTA-20230419AAB

Dear Mr. Rogatinsky:

This is in reference to the request filed on April 19, 2023. ORM requests an extension of the STA originally granted on October 20, 2022, to continue operating from an alternate site location due to the loss of the licensed site.¹ In support of the request, ORM stated that it plans to file the required FCC Form 302 application to cover BP-20230302AAB after construction of the new facility proposed in the construction permit has been approved by the Commission and then built.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

¹ W WNDO(AM) is licensed for DA operation on 1520 kHz with 5 kW day and 0.45 kW night using different patterns, and BP-20230302AAB proposes a change in city and site, using a new 4 kW daytime DA pattern, and the same pattern at night with the power reduced to 0.008 kW at the WRSO transmitter site.

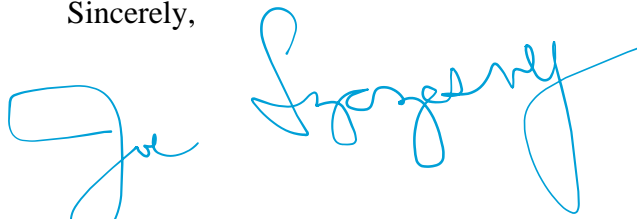

Accordingly, the request for extension of the STA is hereby GRANTED, and ORM may continue to operate with the following facilities:

Geographic coordinates	28° 34' 11" N, 81° 26' 01" W (NAD 1927)
Frequency	1520 kHz
Hours of operation	Daytime and Nighttime
Operating power	1 kW(day), 0.01 kW (night)
Antenna type	Existing WRSO(AM) tower
ASRN	1247871
Electrical height of radiator	168.8°
Antenna Efficiency	367.3 mV/m per kW at 1 km

ORM must reduce power or cease operation if complaints of interference are received, and must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

This authority expires on **December 26, 2023.**²

Sincerely,

Joseph Szczesny, Engineer
Audio Division
Media Bureau

cc: Scott Woodworth, Esq., EA PLLC (via e-mail only)

²Periods of operation pursuant to this STA shall be recorded in the station's records (see 47 CFR § 73.1820). The records shall include start/stop dates and times of such operation. These log entries must be maintained for a minimum of two years as specified in 47 CFR § 73.1840(a), unless a longer retention period is requested by the staff. Periods of operation may be subject to independent verification that they in fact occurred.
