Special Temporary Authority (STA)  
BESTA-20230601AAC

Dear Mr. Cruz:

This is in reference to the request filed on June 1, 2023. PBS requests a further extension of the STA granted on September 20, 2019, to continue operating with parameters at variance to allow time to file the required FCC Form 302 application to update all operating parameters.<sup>1</sup> In support of the request, we noted that PBS plans to file the application later this year (barring no unforeseen delays).

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and PBS may continue to operate with the licensed 1 kW pattern day and night with DA parameters at variance (and reduced power if needed) while maintaining all monitor points within licensed

limits. PBS must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

This authority expires on **December 27, 2023.**<sup>2</sup>

<sup>2</sup>Periods of operation pursuant to this STA shall be recorded in the station's records (see 47 CFR § 73.1820). The records shall include start/stop dates and times of such operation. These log entries must be maintained for a minimum of two years as specified in 47 CFR § 73.1840(a), unless a longer retention period is requested by the staff. Periods of operation may be subject to independent verification that they in fact occurred.
