Re: Estrella Radio License of Houston LLC
(ERLH)
KEYH(AM), Houston, TXT
Fac. ID No.: 2911
Special Temporary Authority (STA)
BESTA-20230620AAC

Dear Mr. Kei:

This is in reference to the request filed on June 20, 2023. ERLH requests a further extension of the STA granted on December 15, 2021, as modified to operate using an existing tower at an alternate site to allow time to file the required FCC Form 301 application to specify a new permanent facility at another site.¹ In support of the request, ERLH stated that additional time will be needed to file the application (due to redevelopment of the old transmitter site).

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and ERLH may use the following modified facilities:

Geographic coordinates	29° 49' 32" N, 95° 22' 35" W (NAD 1927)
Frequency	850 kHz
Hours of operation	Daytime only
Operating power	0.1 kW
ASRN	1323158
Antenna Efficiency	307 mV/m at 1km for 1 kW

¹ KEYH(AM) is licensed for DA operation on 850 kHz with 10 kW day and 0.185 kW night, using the same pattern..

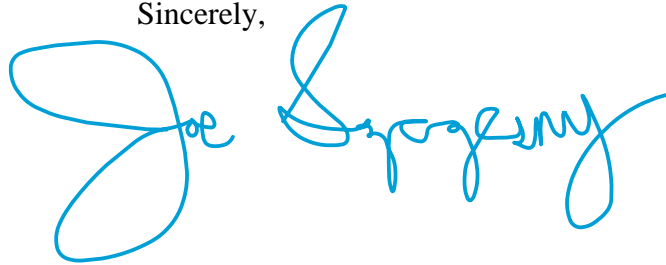

Antenna type

Grounded, self-supporting tower, 75.9 meters overall, shunt fed 10 feet above ground.

ERLH must reduce power or cease operation if complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

This authority expires on **January 3, 2024**.²

Sincerely,

A handwritten signature in blue ink, appearing to read "Joe Szczesny". The signature is fluid and cursive, with the first name "Joe" being more prominent and the last name "Szczesny" following in a similar style.

Joseph Szczesny, Engineer
Audio Division
Media Bureau

²Periods of operation pursuant to this STA shall be recorded in the station's records (see 47 CFR § 73.1820). The records shall include start/stop dates and times of such operation. These log entries must be maintained for a minimum of two years as specified in 47 CFR § 73.1840(a), unless a longer retention period is requested by the staff. Periods of operation may be subject to independent verification that they in fact occurred.
