Subject: Re: KBFX-CA - BLSTA-20090206AFJ

Good afternoon Mohammad,

Per your request, I am supplementing the above-referenced application for Special Temporary Authority to reflect that, as of today, the station is operating at 2.55 kW ERP. Due to the failure of more than one power module, the station's reduced power operation has been carried out at varying levels as repairs are undertaken.

Please let me know if you have any questions or require any additional information.

Thanks so much.

Emily
